EXPERIENCE *Lead iOS Developer, Roshka Squadra, Paraguay* Apr 13' - Present

I am an experienced iOS developer and team leader with 4 years' experience in the banking sector, accompanying clients through the project lifecycle, from definition to publication in the app stores.

In charge of orientating the team and responsible for its results, I have overseen the development of over 20 apps and hundreds of features for both iOS and Android. Having begun as a junior developer at the consultancy in 2013, I now lead the mobile team of 8 developers, have project ownership, and report to the CEO.

I work closely with other teams to architecture APIs and systems used by apps, as well as providing support to new and existing systems. I also manage App Store and Play Store accounts, coordinating beta and production releases.

Firmware Intern, Biamp Systems, Australia Feb 12' - Jul 12'

Score of 6 out of 7 implementing firmware for networked paging controller with UI

EDUCATION *Bachelor of Electronic and Computer Engineering, Griffith University, Australia* Feb 08' - Nov 12'

APP STORE *Banking apps I personally coded significant parts of*

- Itaú pagos Paraguay (iPhone, Swift): <https://goo.gl/gfVveB>
- Familiar (iPhone, Swift): <https://goo.gl/yG2sFG>
- BBVA Paraguay (iPhone, Obj-C): <https://goo.gl/kkevfk>
- BBVA Business Paraguay (iPad, Obj-C): <https://goo.gl/BfTVRu>
- El Comercio (iPhone, Swift): <https://goo.gl/i1demZ>
- Itaú Paraguay (Universal, Obj-C, web): <https://goo.gl/4Vh5il>

FEATURES *Features I have personally coded*

- 2D animation of a package as it travels a delivery route on Google Maps
- Touch ID, certificate pinning, virtual keypads, and local session management
- Highly-voted answer on StackOverflow: <https://goo.gl/uQYxaV>
- Push notifications with and without Firebase
- Author of 3 CocoaPods used in multiple production apps
- Facebook bot written in node.js using Wit.AI to extract relevant information
- An app backend in Go to save places of interest to a Google Cloud Datastore
- Advanced web view, JSContext, and synchronous communication bridges
- Dining Philosophers Problem in Swift: <https://goo.gl/bGXjXI>
- HN Hiring Extension: <https://goo.gl/uOR3Xf>
- Conway's Game of Life in JavaScript: <https://goo.gl/MnHXXt>
