EXPERIENCE   *Lead iOS Developer, Roshka Squadra, Paraguay*   Apr 13' - Present

I am an experienced iOS developer (Objective-C and Swift) and team leader with 5 years' experience in the banking sector, accompanying clients through the project lifecycle, from definition to publication in the app stores.

In charge of orientating the team and responsable for its results, I have overseen the development of over 20 apps and hundreds of features for both iOS and Android. Having begun as a junior developer at the consultancy in 2013, I now lead the mobile team of 8 developers, have project ownership, and report to the CEO.

I work closely with other teams to architecture APIs and systems used by apps, as well as providing support to new and existing systems. I also manage App Store and Play Store accounts, coordinating beta and production releases.

Firmware Intern, Biamp Systems, Australia   Feb 12' - Jul 12'

Score of 6 out of 7 implementing firmware for networked paging controller with UI

EDUCATION   *Bachelor of Electronic and Computer Engineering, Griffith University, Australia*   Feb 08' - Nov 12'

APP STORE   *Apps I personally coded significant parts of*
- Itau pagos - https://goo.gl/gfVveB
- Banco Familiar - https://goo.gl/yG2sFG
- BBVA Paraguay - https://goo.gl/kkevfK
- BBVA Business Paraguay - https://goo.gl/BfTVRu
- Financiera El Comercio - https://goo.gl/i1demZ
- Itau Paraguay - https://goo.gl/4Vh5il

FEATURES   *Features I have personally coded*
- 2D animation of a package as it travels a delivery route on Google Maps
- Coded MVP app in React Native and ReactJS
- Touch ID, certificate pinning, virtual keypads, and local session management
- Highly-voted answer on StackOverflow: https://goo.gl/uQYxaV
- Push notifications with and without Firebase
- Author of 4 private CocoaPods used in multiple production apps
- Facebook bot written in node.js using Wit.AI to extract relevant information
- An app backend in Go to save places of interest to a Google Cloud Datastore
- Advanced web view, JSContext, and synchronous communication bridges
- Dining Philosophers Problem in Swift: https://goo.gl/bGXjXI
- HN Hiring Extension: https://goo.gl/uOR3Xf
- Conway's Game of Life in JavaScript: https://goo.gl/MnHXXt
